Creative Leadership in a rapidly changing world: Fredrik Härén

How many of you think creativity is important?

How many of you think you are creative?

How many of you think your organization is doing enough to foster creativity?

**What is an idea?**

- One person takes two formally known things and \_\_\_\_\_ in a new way.
- Idea= \_\_\_\_\_
- Point: Don't \_\_\_\_\_ at someone when they present an idea.

**Creativity has never been more important than now**

- Idea- perception- the ability to see that the \_\_\_\_\_ is changing.

**The problem:**

- We are not ready for this \_\_\_\_\_ because we are not very good at it.

**Create:**

- Most of us are the brother or the German, but the people you are leading are so \_\_\_\_\_ in doing things because that's how someone \_\_\_\_\_
- Imagine if we had the focus and priority to \_\_\_\_\_ our people to be more creative.
- How? Not by talking about it or teaching about it. You do it by \_\_\_\_\_

\_\_\_\_\_ yourself as a leader. People are \_\_\_\_\_ to be creative.

- We are never closer to God than we are when we have a \_\_\_\_\_.
